BIOGRAPHY

Hailing from Naples in southern Italy, and now based in the vibrant metropolis of Milan, Benito Moschini—widely known by his stage moniker **Benny Camaro**—has been at the forefront of the global electronic music scene for over a decade. A performer, producer, singer, and classically trained musician at his core, his journey into the DJ booth is a testament to his profound, lifelong connection with music.

Benny's intricate signature sound is a masterful blend of House, Electro, Progressive, and Deep House flavors, deeply enriched by inspirations from Soul, Funk, Afro-American music, and Rock. These eclectic influences can be traced back to his roots as a live musician and pianist. Although he pursued academics and graduated with a degree in Law, his unyielding passion for music ultimately defined his path. *"Today, music is my profession, from studio production to live performances around the world. It's nice when you can live with what you like,"* he reflects.

A leading figure in Italy's dance music landscape, Benny Camaro has commanded the attention of some of the world's most renowned record labels. Over his prolific career, he has released music with titans such as **Armada Music**, **Toolroom**, **No Definition**, **Jango Music**, **Casa Rossa**, **IRMA Records**, and many more.

His impressive discography features memorable chart-topping productions like *"Stardust," "Love Me," "Is This The Way,"* and the recent hit *"Buga"* (in collaboration with Francesco Lopez). His latest endeavors include the *"Maya"* EP alongside Santarini and continuous elite collaborations with heavyweights such as Robbie Rivera and EDX.

Beyond his top-notch studio output and worldwide tours, Benny shares his curated sounds as the host of the radio show *'Hot Wheels'*. His versatile talent allows him to seamlessly transition between high-energy DJ sets at massive festivals and intimate live performances playing the piano and singing.

"The music is the only emotion or thing for which I would be willing to die. I breathe music; it saved my life." - Benny Camaro
